To Whom it May Concern,

I am writing in regards to the proposed hearing on rate increases for LG&E customers. I am in strong disagreement with the rate increases. Just looking over my gas bills from the last year, I am paying on average \$20-\$30 more a month now than the previous year, and for around the same amount of gas use. I have also seen increases on my electricity costs, but not as drastic. Needless to say, I am frustrated that LG&E is calling for more rate increases. As a teacher, I have seen my wages stay nearly the same for two years. It is very difficult to swallow the costs of everything continuing to go up, while my wages stay the same. I realize that these are tough times, so I accept no pay raises..... I think LG&E should realize that to. I strongly discourage any rate increases for all customers. Thank You.
