Gouge, gouge, gouge.
This is all American business has known. Since the Conservative Republican Richard M.

Nixon was reelected in 1973 with his dollar a gallon gasoline.
Instead of a good product at a good price, it is supply side economics, capitalism without morality.

Entities like the PSC are suppose to protect the American public from gouging and them from themselves and greed since corporations have no heart.

We pay \$500.00 a month for a house note and \$300.00 a month to LG&E for heat. I am not sure that is equitable.

A 40% increase in 2006, a 40% increase over that in 2007 and now another, PLEASE!!!
