Re: Public Service Commission of Kentucky Case No. 2008-00319

Dear Eric Bowman:

Enclosed please find a copy of the response letter written to Cecil Sizemore addressing his concerns with the proposed tower site near his property.
If you have any questions or anything further is needed in this matter please contact me.

Sincerely,

Marty Thacker

Re: Public Service Commission of Kentucky Case No. 2008-00319

Dear Cecil Sizemore:

Thank you for your response, dated November 5, 2008, to the Kentucky Public Service Commission Case No. 2008-00319. I understand your concerns and will try with the following explanations to address all of your questions about the impact of the tower.

The proposed tower is located approximately $\frac{1}{4}$ air miles from your property and will be Engineered and installed to comply with all standards from the Kentucky Public Service Commission and FCC.

As the technology advances and more and more people are turning toward cellular phones instead of landline phones I greatly feel that the proposed tower will increase the value of your property. It will enable the area to become more advanced and appealing to people looking for the type of convenience that cellular service offers.

The placement of the cell phone tower will not cause any restrictions on your property for further building or expansion.

Please view the enclosed map showing the location of all property around the proposed tower.

If you have any other questions or concerns please contact Marty Thacker at 606-447-0016 or e-mail m.thacker@tgtel.com

Sincerely,

Marty Thacker
