CASE NO. 2008-00480

**FILED**  
NOV 20 2008  
PUBLIC SERVICE  
COMMISSION

PETITION

Pursuant to KRS 278.023, this Petition of the Adair County Water District ("District" or "Petitioner"), respectfully states:

1. That Petitioner is a Water District in Adair County, created and existing under and by virtue of Chapter 74 of the Kentucky Revised Statutes, pursuant to an Order of the County Court of said County, following the requisite procedure prescribed in said Chapter 74

2. That the Post Office address of said District is "Adair County Water District, Danny Downey, Vice Chairman, P.O. Box 567, Columbia, Kentucky 42728".

3. That the formation of the District, its present tariff of rates, and the issuance of its outstanding long term indebtedness have been previously approved by Orders of the Public Service Commission of Kentucky ("PSC").

4. That in 2007 the District embarked on a two Phase Project. On June 14, 2007, the Commission entered an order granting a Certificate of Public Convenience and Necessity and approving the financing plan for Phase I of the Project. The Commission's Order in Case No. 2007-00195 is attached to the Exhibit Addendum accompanying this Petition.

5. That subsequent to the entry of the Commission's Order of June 14, 2007 the District obtained a Loan in the amount of \$1,000,000 from the Kentucky Infrastructure Authority ("KIA"). On December 12, 2007, the Commission entered an Order approving the KIA Loan and its application, if required, to Phase I of the Project as well as to an undetermined Phase II of the Project; provided, however, that Section 6 of said Order required the District to obtain a Certificate of Public Convenience and Necessity for Phase II of the Project upon the specific details of said Phase II being determined. The Commission's Order in Case No. 2007-00473 is attached to the Exhibit Addendum accompanying this Petition.

6. That the specifics of Phase II have now been determined and the District seeks a Certificate of Public Convenience and Necessity approving the construction of extensions, additions and improvements to the District's Water System, herein described as Phase II of the Project consisting of (a) 1,900 LF of 6-inch water line, (b) 28,890 LF of 4-inch water line, and (c) 53,350 LF of 3-inch water line in order to serve approximately 75 new residential customers located on 14 different rural roads
