Re. Bruff v. Blue Grass Energy  
2008-00488

Dear Mr. Derouen,

Please be advised that a February 2009 appraisal of our home by Ben Campbell confirms our home to be 4413 sq. ft of living space. Ms. Wells + Mr. Combs allegation of 5832 sq ft includes our garage and over 2/3 of our basement which is unfinished. We do not heat or cool these areas. Perhaps this misquote of the size of our home coupled with automatic rather than in person readings explains our erroneous and quite high bills. I'd also like to add that I tried on numerous occasions to resolve this matter with Bill Hall but personal and other excuses always stood in the way of him getting back to me.

Thank you.

Respectfully yours,  
ME Bruff
