RE: Case No. 2008-00494

Dear Mr. Derouen:

We have received the Commission's order concerning the purchased water adjustment from the City of Ashland. Though no fault of Cannonsburg Water District, we find that we are required to adjust our customer's accounts that were charged the wrong rates due to City of Ashland not filing its rate increase in a timely manner. We are required by Commission's order to verify in writing to the Commission that all of our customer accounts that were billed at rates that differ from those in effect on December 31, 2008 have been credited for any amounts in excess of the effective rate.

We are requesting an extension for extra time as our software program is out dated and our staff will have to individually adjust each customer's account for January and February 2009 billings. We have over 3,500 customers.

We request to have 60 days in order to comply with the Commission's order instead of the 30 days ordered by the Commission.

Sincerely,

Danny R. Clarkston
Manager
