

3-1-09

Hi Jeff;

I cant attend the public hearing on March 17<sup>th</sup>, but I would like to draw your attention to Blue Grass Energy's electric bill procedure. They have a hidden fee on the bill every month for every meter. They call it a service fee. It is 8.75 a month per meter. I have two meters. I can see that this fee might be collected for the first time at time of installation, but to have this fee every month and they are not itemizing it on the charges is suspect.

You can multiply your total kilowatts by a multiplier of .07658 to get your charges, but that figure is always below what they charge you. I think this practice should be stopped!

Sincerely

James B. Anness
