PUBLIC SERVICE
COMMISSION

ATTENTION UTILITIES INC. CUSTOMERS!

UTILITIES INC. the water company that serves
Clinton is asking the Kentucky Public Service
Commission for an over 50.8% rate increase.
THIS IS NOT A DONE DEAL!

Dear Utilities Inc. & Water Service,

We have heard of the potential to raise our
water bills by up to 53%. This is terrible
news! We are in the midst of financial
turmoil all across our state and nation.
Ever since you've taken over our water system
you've been a mess-up.

- 1) We use to have better service when we were
locally owned.
- 2) You tried and did bill your customers twice
a month for about 3 months.
- 3) Now your calling for a super big increase.

Sounds like a Monopoly to me.

Do you want everyone to dig a well? OR will
you make a law against that too? Jodil Johnson
