Gentlemen:

I am writing to express my opposition to the water rate increase proposed by Water Service Corporation of KY, PSC Case No. 2008-00563. We are a small community composed mainly of seniors and low income families. It is hard to meet our present water / sewer obligations without a rate increase.

Most of us cannot afford the time or expense to travel to Frankfort. It would be most helpful if PSC could schedule a public meeting in our community or nearby where we could have a chance to express our concerns.

Yours truly,

Mrs. Pat Johnson
