KY Public Service Commission
211 Sower Blvd
Frankfort, KY 40601

Gentlemen:

As a small business owner I am writing to express my opposition to the 50.80% rate increase proposed by Water Service Corporation of KY, PSC Case No. 2008-00563. I am in the business of making industrial cleaner which uses water but does not use the sewer system. However, I am being charged for water plus 133% of water usage for sewer. If the water rate increase passes I may be forced to move my business out of the city.

In the present economy I cannot take time from the business to make a trip to Frankfort. It would be most helpful if a public meeting could be scheduled in our area so we can express our concerns.

Sincerely,

NO 1 CLEANER

Joanne Harper
