R Sir -

I am writing this letter to let
you know that some of the people
living in southeastern Kentucky,
namely Middlesboro and Chilton can
not be subjected to utility
rates such as this utility company
(company) plans to impose in the
future. Most of the people in this
part of the state are either on fixed
income or social security. I feel that
it would be unfair to allow this huge
increase in our utilities to happen. So on
behalf of most of the people living in
this area I am asking that you not allow
this to happen.

Sincerely
Wallace K. Haddix
