attention Utilities inc,

APR 30/09

The reason why is because I'm on low income and raising my 10 yr old grandson with no child support and only receive \$14.00 EBT food stamps, all my money goes for food and bills and even what I receive is not enough for the month, therefore I'm always behind already. The reason I don't want to drive there is because of no gas and my car is unreliable.
