Re: Water Service Corp of Kentucky

PSC Case 2008-00563

Public Service Commission;

My name is Peggy Fox, I am a senior citizen caring for my three teenage grandsons in Clinton KY. I am strongly opposed to the 50.8% increase. I have live many places all Over the U.S. and have never paid so much for water and sewage. It is so hard to pay Bills as it is. The water bill right now is sky high that if you are allow to raise it over half More I don't know how I will be able to afford the water. It is more so the drainage that Is so high. I am always getting on my boys to take quick showers and don't run water When washing hands, it is making us a wreck! There is no sense on my boys not being Able to use a little water to wash, without me sweating it! I feel that it's a bad idea, Simply because it would make life for my grandchildren and me much harder. I think Anymore increase in this will make more of a hardship on those who are barely Managing as is. I know this because I am one

waterbill.txt

of those who live on a fix income and I Should not have to constantly be on my boys about running the water just so we can

Use the money on food and other needs rather than the water used on extra things.

By the way the boys don't waste water; they shouldn't be made to feel uptight about Your water & sewage prices. I called one day and the lady said, "Your toilet must be Running!? I'm a single parent, trying my best to raise my three grandsons, having a Strict lifestyle just to a keep the high cost of water from eating up what little money we Get, but if it increases it will surely make life harder on those who are trying their best, Like us, to make ends up. Please consider having a public meeting in Hickman Co. With gas going up and the Time it will take to go to Frankfort it would cause a huge burden for me.

**Thank you for
Your attention to this matter.**

Thank-You,

Peggy Fox
