I do not believe that Middlesboro should have a rate increase of 50.8%. The economy is very bad + a lot of people in Middlesboro are just getting by with their bills. I use water in the City of Middlesboro and feel that to increase the water by 50.8% will put a hardship on the people of Middlesboro who are just getting by with their bills. I also believe that what we have now is enough on our water bill.

Sincerely  
Glenda Lory
