CASE NO. 2009-00066

**SUPPLEMENTAL INFORMATION IN SUPPORT OF  
AMENDED APPLICATION AND REQUEST FOR INTERIM ORDER**

---

Delta Natural Gas Company, Inc. ("Delta") respectfully submits this Supplemental Information in support of its Amended Application and Request for Interim Order herein. Specifically, Delta seeks an interim order to continue its current hedging plan through the 2009 gas storage injection period, May through November, and through the 2009-2010 winter heating season or until such time as a final order is entered as requested in its original Application herein because it would like to be able to take advantage of natural gas pricing changes that are favorable to its customers. Currently, NYMEX prices for natural gas purchases for the 2009 summer injection season are lower than the prices at which Delta purchased gas for the 2008 summer injection season. While Delta cannot predict changes in natural gas prices in the future, if such prices are favorable at a time when Delta can take advantage of them, it would be to the benefit of Delta's customers to be able to do so. For these reasons, Delta requests that the Commission issue an Interim Order herein that continues Delta's current hedging plan through the 2009 gas storage injection period, May through November, and through the

2009-2010 winter heating season or until such time as a final order is entered as requested in its original Application herein.

Dated this 4th day of March 2009.

Respectfully submitted,

Robert M. Watt, III
