RE: Case Number: 2009-00093.

Kentucky Public Service Commission
Executive Director
211 Sower Boulevard
P.O. Box 615
Frankfort, Kentucky 40602

To Whom it May Concern:

Please register this letter as a public comment and if necessary a request to intervene into the above action in opposition to the placement of the tower. To be precise, I do not feel that the notice as presented or the placement of the tower has adequately taken into account the financial impact upon my contingent property.

The basis for this position is that the notice and the attached map is faulty in that it appears to be based upon a map which details the road layout and general area as this area existed prior to the expansion of U.S 23 through this intersection. I cannot determine from the map where on this property the tower would be placed, and therefore cannot adequately determine how, if any, this placement would impact my property.

I believe that my issues can be addressed by an updated map showing where on the property the proposed tower would be placed This would allow me to determine whether or not it would adverse impact my property and future development of residential, commercial and/or industrial uses including the removal of natural gas and coal.

Sincerely,

Floyd Skeans
