PUBLIC SERVICE
COMMISSION

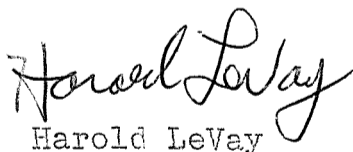

This is my motion to intervene on the request of Hardin County Water Distric No. 1, Case #2009-00113, as owner of Country Lane Mobile Home Park located in Hardin County KY.

My objection is the meter housing and base was supplied and purchased from Hardin County Water Distric No. 1. It is the type that has flexable lines under the meter base that allows you to pull the meter out of the top of the housing. I have had leaks in these flexable lines in the past. They are not as flexable now as they once were 25 years ago. I have had leaks in those lines and have had to get Jim Bruce on the phone to get his men to repair them. I do not want to inherit a problem that Hardin County Water Distric No. 1 has created.

There were two mobile home parks that was losing the vast majority of the water that Hardin County Water Distric No. 1 claims the mobile home parks were losing. They are now closed and subdivions are going up in their place.

I think the mobile home park owners/operators are willing to work with Hardin County Water Distric No. 1 in resolving their other conserns.

The alternative to master metering as Hardin County Water Distric No. 1 has stated in a subsections i,ii,iii, iv,v,vi are cost prohibitive .
