To MR. Jeff Derouen:

My name is Tiffany Prather. I recently received a letter in the mail from the Hardin County Water District NO.1 on the proposed Tariff change. I am very unhappy about this letter and would like to Intervene or dispute (what ever you call it) this change. My water bill has never been above \$50.00 a month and I do not want it to be higher than that and I feel with this new change (to have manufactured housing communities only having 1 master meter) my bill will increase because it will be up to the owner of the park to decide how much each resident pays. I feel this is unfair and I have just as much right to have my own water bill as someone in a house. I own my mobile home I do not rent but I feel as though since it is not a house the water company feels I don't deserve the same rights as some one who owns a house. I am also unhappy that I can not contact anyone about this change except through the mail. I know that my opinion probably doesn't matter but I still wanted to be heard. I am a single mom trying to raise my daughters the best I can. I work hard for the money I make and I would like to have some control of how it is spent. Please contact me back at 270-505-5471 or 369 Elm Rd lot 12 Radcliff KY 40160.

Thank you,  
Tiffany Prather

## **PUBLIC NOTICE PROPOSED TARIFF CHANGE**

HARDIN COUNTY WATER DISTRICT No. 1  
1400 Rogersville Road  
Radcliff, KY. 40160  
Phone: 270-351-3222

---

Notice is hereby given that the Hardin County Water District No. 1 (District) by motion dated January 20, 2009 of its Board of Commissioners has filed an Application with the Kentucky Public Service Commission (PSC) seeking approval to make changes to the District's tariff in accordance with PSC Tariff Change regulations. The tariff change affects reactivation of master meters for billing multi-unit residential properties.

If the proposed tariff is approved, manufactured housing community residents may no longer be customers of the water district. Instead, the community or its owner would become a customer of the water district, and all the community's residents would be served through a single master meter for the entire property. After the change occurs, the residents would no longer receive a water and sewer bill from Hardin County Water District No. 1.

Notice of Right to Intervene: District customers are advised that any corporation, association, body politic or person may by motion within thirty (30) days after mailing of this notice (*or until September 15, 2009*) request leave to intervene. Motions to intervene shall be submitted to the Kentucky Public Service Commission, 211 Sower Boulevard, P.O. Box 615, Frankfort, KY. 40602; ATTN: Mr. Jeff Derouen, Executive Director, and set forth the grounds for the request including the status and interest of the party. Intervenors may obtain copies of the Application by contacting the District at the address or phone listed above and said Application shall be available for public inspection at the District offices. For any questions or additional information contact, Mr. Jim Bruce, General Manager. Submitted by: Mr. William J. Rissel, Chairman, on behalf of the Hardin County Water District No. 1, Board of Commissioners.
