PUBLIC SERVICE  
COMMISSION

Jeff Derouen, Executive Director  
Kentucky Public Service Commission  
211 Sower Boulevard  
P.O. Box 615  
Frankfort, KY 40602

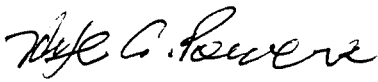

Mr. Derouen,

I recently received a public notice pertaining to a proposed tariff change which, if approved, would change the metering to a single master meter for manufactured housing community residents.

I would like to intervene in opposition of this proposal. Given the choice, I would prefer to continue to have my usage metered individually. I would appreciate, as owner of my home, if my preference could be acknowledged and remain in effect.

Thank you for your time and consideration.

Respectfully,

Hye C. Powers
