RE: Case #2009-00120

To Whom It May Concern:

This letter is being written in response to the public notice in this week's local newspaper about the possibility of constructing a cellular phone tower in the Coopersville area of Wayne County. This tower is needed so badly in this area. Currently we have no service at all in this area. I, personally own a business and we are an on-call business, so when I leave the office in the afternoons or for the weekend, the phones are forwarded to the cell phones so we can be reached. However, since there is no service in this area, where I live, I have to constantly check my cell phone to see if I have missed a call to know if someone has called and then I have to call them back from my home phone. This is a very big hassle for me. A tower in part of the county would be so beneficial; I cannot tell you how grateful I, along with numerous other residents, would be for one to be constructed there.

Thank you so much for your consideration.

Thank you,

Angela Tucker, Administrator
Lake Cumberland Drug Testing
