Concerning: 49.90% Rate increase:

Dear Executive Director and Middletown Waste Disposal owners,

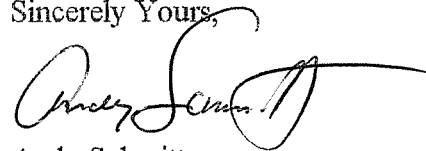

In regards to the proposed sewer rate increase of 49.90% , we find this increase to be extremely excessive and unreasonable. Since there is no competition in dealing with a utility, an increase should be fair, reasonable and justifiable. We by no means in our business could request a 49.90% increase in our rates and stay competitive.

The question is why is there such a dramatic increase? To us it simply looks like greed is at the heart of this matter. With inflation at 3 to 4% per year that is fair and justifiable increase.

Concerning our water usage; 90% of it is utilized in washing Budget trucks and never gets processed in a water treatment facility. With the two toilets only four people are using these and two of those are part timers.

Please send me a reasonable answer why this increase is necessary.

Sincerely Yours,

Andy Schmitt
Scott Schmitt
Doug Schmitt
Owners

NOTICE

Middletown Waste Disposal, Inc. has filed an application with the Public Service Commission to increase its rates for sewer service. The proposed effective date of the change is July 30, 2009.
