RE: APPLICATION FOR NONRECURRING CHARGE INCREASE

The Fleming County Water Association ("Fleming County") is requesting the PSC approve the nonrecurring charges listed herein. In support of its application, Fleming County states:

- Cost justification forms are included and show a full description of the equipment or service provided. The proposed rates cover incremental costs and a reasonable contribution to overhead. Further, Fleming County will file a new tariff if and when the proposed nonrecurring charges are approved which will set out an explanation of each charge.
- A copy of the notice that will be filed in the newspaper is included in this application. Verification from the newspaper that the notice will be published for three (3) consecutive is also included.
- A copy of this application has been filed with the Office of the Attorney General, Rate Intervention Division.
- Fleming County recently filed a rate case as allowed under the 278.023 Statue, but did not propose an increase in it's non recurring charges in that filing. Since the time of the current non recurring charges were approved the costs of performing the services associated with the nonrecurring charges listed herein have drastically increased. Fleming County cannot absorb the expenses associated with the nonrecurring charges until its next general rate case.
- The group of customers affected by the increase in nonrecurring charges will be the customers who cause Fleming County to incur the expense. It is unfair for all customers to absorb the cost Fleming County must incur due to a specific customer.
