

COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

2009 INTEGRATED RESOURCE PLAN OF) CASE NO.
KENTUCKY POWER COMPANY) 2009-00339

SUPPLEMENTAL DATA REQUEST OF COMMISSION STAFF
TO KENTUCKY POWER COMPANY

Kentucky Power Company ("Kentucky Power"), pursuant to 807 KAR 5:001, is to file with the Commission the original and 10 copies of the following information, with a copy to all parties of record. The information requested herein is due on or before January 8, 2010. Responses to requests for information shall be appropriately bound, tabbed and indexed. Each response shall include the name of the witness responsible for responding to questions related to the information provided.

Each response shall be answered under oath or, for representatives of a public or private corporation or a partnership or association or a governmental agency, be accompanied by a signed certification of the preparer or the person supervising the preparation of the response on behalf of the entity that the response is true and accurate to the best of that person's knowledge, information, and belief formed after a reasonable inquiry.

Kentucky Power shall make timely amendment to any prior response if it obtains information which indicates that the response was incorrect when made or, though correct when made, is now incorrect in any material respect. For any request to which Kentucky Power fails or refuses to furnish all or part of the requested information, it shall

provide a written explanation of the specific grounds for its failure to completely and precisely respond.

Careful attention shall be given to copied material to ensure that it is legible. When the requested information has been previously provided in this proceeding in the requested format, reference may be made to the specific location of that information in responding to this request. When applicable, the requested information shall be separately provided for total company operations and jurisdictional operations.

1. Refer to the response to Item 1.a. of Commission Staff's November 13, 2009 data request ("Staff's First Request"), which states that Kentucky Power anticipates filing demand response programs, including air conditioning and hot water heating direct load control programs, in February of 2010.

a. The phrasing of the response implies that programs other than the two specifically identified will also be filed in February of 2010. Identify any other new programs Kentucky Power anticipates filing at that time.

b. The other three jurisdictional investor-owned electric utilities already have air conditioning and water heating direct load control programs in effect. Describe (1) the extent to which Kentucky Power is familiar with the programs of Duke Energy Kentucky, Inc., Kentucky Utilities Company, and Louisville Gas and Electric Company and (2) the extent the programs it anticipates filing next year are patterned after any other those companies' programs.

2. Refer to the response to Item No. 2 of Staff's First Request, which states that Kentucky Power does not anticipate being involved in non-utility generation

projects other than those identified in its Integrated Resource Plan (“IRP”) during the next two years. Explain whether Kentucky Power expects to be involved, as a transmission service provider, with any non-utility/merchant generators during that time period.

3. Refer to the response to Item No. 4.a. of Staff’s First Request. It appears that the date of the final report is November 20, 2008. Explain whether Kentucky Power expects to have results from the Indiana programs available as it develops its expanded demand-side management, energy efficiency and demand response programs.

4. Refer to the response to Item No. 4.b. of Staff’s First Request. Explain why the demand response programs on pages 4–9 of the final report were not depicted in Exhibit 3.3 of Kentucky Power’s IRP.
