RE: Case No. 2009-00343

Dear Mr. Derouen:

Montgomery County is in receipt of the Commission Staff's First Information Request with regard to the above case filing. This request is generally used by staff for utilities filing general rate cases before the Commission. Montgomery County's filing was made pursuant to 807 KAR 5:076 Alternative Rate Adjustment for Small Utilities.

It is Montgomery County's understanding that 807 KAR 5:076 provides a simplified and less expensive procedure for small utilities to apply for rate adjustments. Montgomery County has approximately 680 customers and cannot afford the expense of filing a costly rate case.

In support of its application Montgomery County used the Commission's filing form as required pursuant to 807 KAR 5:076, Section 3. A billing analysis as set forth in the sample form for filing the application is included in the application.

Montgomery County believes it has met the requirements of the applicable regulation. Montgomery County respectfully requests any and all deviations that may be applicable in order to meet any deficiencies in the filing.

Sincerely,

  
\_\_\_\_\_  
Chairman
