Subject: Follow-Up

Marc,

Sorry for the phone tag today. Unfortunately, I also had mobile phone issues and was not getting a signal. As a result, I just picked up your message. May not have been an issue since I believe you suggested I call your office which I did anyway.

Stefan also called with some questions regarding WKE, and I spoke with him. He may have followed up with you.

Let's touch base in some manner tomorrow on both WKE and the Invenergy contract.

Kent
