ESTABLISHED BY THE CITY OF SALEM)	

O R D E R

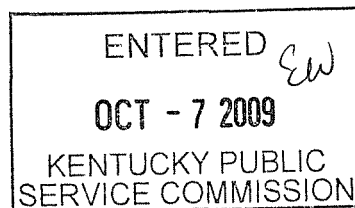

On September 25, 2009, Kentucky Utilities Company ("KU") filed with the Commission its application seeking a Certificate of Public Convenience and Necessity to qualify it to bid on a franchise for electric service offered by the city of Salem, Kentucky. Under the provisions of KRS 278.020(4), no utility may apply for a franchise from any governmental agency until it has obtained a Certificate of Public Convenience and Necessity from this Commission, based on our finding that there is a need and demand for the service sought to be rendered.

In light of the ordinance of the city of Salem creating an electric distribution franchise, the Commission determines that there is evidence of a need and demand for electric service in the above-mentioned city. Since the Commission's authority in such matters is limited by statute to finding only whether there is a need and demand for the service sought to be rendered, no finding or determination is made as to the qualifications of the bidder, the validity of any of the provisions of the franchises offered by said city, or the manner in which any franchise fee is to be treated for rate purposes.

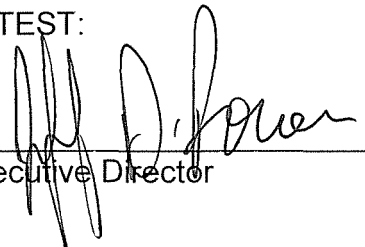

IT IS THEREFORE ORDERED that:

1. KU is granted a Certificate of Public Convenience and Necessity that authorizes it to bid on a franchise for electric service offered by the city of Salem, Kentucky.
2. KU, if it becomes the successful bidder, shall file with this Commission two copies of the franchise agreement.
3. This Order shall not be construed as granting a Certificate of Public Convenience and Necessity to construct utility facilities in said city.

RE: Application of Kentucky Utilities Company for a Certificate of Public Convenience and Necessity Authorizing KU to Bid on a Franchise Established by the City of Salem

Dear Mr. DeRouen:

Enclosed please find an original and 10 copies of an Application for a Certificate of Public Convenience and Necessity ("CCN"), to enable Kentucky Utilities Company (the "Company") to apply for an electric franchise with the City of Salem (the "City") pursuant to KRS 278.020(4). In a regular session held on September 15, 2009, the City Council of Salem, Kentucky passed Ordinance No. 09-05, which directed the advertising for bids and selling of an electric franchise in the City. We respectfully ask for an order granting the CCN by October 20, 2009 to enable KU to bid on the franchise on the sale date of October 20, 2009.

For many years, the Company has been the owner of a franchise granted by the City to erect facilities for providing electric service to the City and the inhabitants thereof. The franchise to be obtained will replace the previous franchise.

If you have any questions, please do not hesitate to contact me.

Very truly yours,

Allyson K. Sturgeon

as 401(k) plans let families save for retirement. Distributions are tax free, but must be used for educational costs such as tuition, books and room and board. While that sounds simple enough, all states offer their own plans, each of which have multiple investments options.

The market's rollercoaster performance in the past year could also be keeping enrollment down. The number of new 529 savings accounts opened this year is expected to fall more than 20 percent to 790,000, according to the Financial Research Corp. Families are likely to scale back investments, too. In the first

way in state, you probably want to comparison shop.

One way to start winnowing the list is to identify the features you want. For example, if you're intimidated by the thought of managing your investments, you might want an age-based plan.

As with target-date retirement funds, age-based 529 plans automatically shift the mix of assets to reduce risk as enrollment age approaches.

Of course, asset mixes can still vary significantly among plans. So compare the portfolios - you may find one is more conservative and in line with your comfort level.

You might also want to

already using a broker for other investments, said Joe Hurley, founder of Saving-ForCollege.com, a division of Bankrate.com. Or they may simply feel more at ease with some professional guidance.

The trade off with an advisor-sold plan is that you'll pay a sales commission of about 5 percent to 6 percent on all contributions. Advisor-sold plans also tend to have higher ongoing maintenance fees.

To keep costs down, go directly to the state's 529 plan site to enroll. Or you can visit the site of the investment firm that manages the state's plan. For example, Fidelity man-

won't be waived if your child simply decides on a different path and doesn't go to college. But you can always change the beneficiary named on the plan.

"Maybe there's a younger sibling heading to college, or even yourself," Hankard said.

Another concern might be that a 529 plan will thwart your child's ability to win financial aid. But so long as the account is in the parent's name, the impact is minimal when applying for aid from public schools.

Even better - 529 plans have no impact on aid applications if they're under a grandparent's name.
