19. MONITORING OF CONSUMER USAGE (continued)

B. High-Low Exception Report: Before the monthly bill calculations, a high-low exception report is run which flags any readings which would generate a bill usage 50% higher or 50% lower than the average of the three preceding months or the corresponding month one year ago.

If an unusual deviation cannot be readily determined, such as a keypunch error, the source document is checked to determine cause for excepting listing.

If the cause for unusual deviation cannot be identified from available documents, a meter reader is dispatched to obtain a new reading. This reading is then compared to the reading previously entered to determine variance.

20. RECONNECTION CHARGE:

When service has been disconnected for other than non-payment of delinquent bill and the Cooperative is requested to reconnect at the same location, a thirty-five dollar (\$35.00) ® reconnect fee will be charged if reconnected outside the regular working hours.

21. COLLECTION OF DELINQUENT ACCOUNTS:

Should it become necessary for the Cooperative to send a representative to the consumer's premises for collection of a delinquent account, there may be a service call charge of thirty dollars (\$30.00) assessed if service is terminated, the bill is paid in the course of the trip, or payment (I) arrangements are made. The charge can only be made once in a billing period. The charge will be due and payable at the time such delinquent account is collected.

In the event a member is disconnected for non-payment of a delinquent account and requests reconnection during regular working hours, sixty-five dollar (\$65.00) service call charge shall be (I) collected. After regular working hours, the service call charge will be seventy-five dollars (\$75.00).
