Re: Jackson Purchase Energy Corporation
Kentucky Public Service Commission - Case No. 2009-00451

Dear Mr. Derouen:

Please find enclosed an original and ten (10) copies of Jackson Purchase Energy Corporation's Application to Amend Tariffs. Also enclosed is an extra copy for purposes of file stamping. Please return the extra copy in the envelope provided.

Should you need any further information from me regarding this filing, please do not hesitate to contact me.

Sincerely,

Melissa D. Yates
Attorney for Jackson Purchase Energy Corporation

)

)

Application of Jackson Purchase)
Energy Corporation to Amend Tariffs)

CASE NO. 2009-00451

FEB 23 2010

PUBLIC SERVICE
COMMISSION

The application of Jackson Purchase Energy Corporation (“Jackson Purchase”) respectfully shows:

1. On January 10, 2008, in Case Number 2007-0116, Jackson Purchase Energy Corporation (“JPEC”) submitted a completed application to the Commission requesting authority to raise its base rates by \$3,554,064, a 9.5 percent (9.5%) increase.
2. As part of said application, JPEC proposed to republish and to revise many of its tariffs in addition to the increase in rates.
3. The Attorney General was the sole intervener in the proceeding.
4. On May 2, 2008, the parties presented a Joint Settlement Stipulation and Recommendation (“Settlement Agreement”) for the Commission’s consideration. Said Settlement Agreement was a resolution of all matters of the case, including any and all tariff revisions. Said Settlement Agreement was presented to the Commission during a hearing held on May 13, 2008 and was approved by the Commission’s Order dated June 17, 2008.
5. Since the new tariffs were instituted, JPEC has become aware of previously unforeseen difficulties which some of its customers are encountering as a result of said revisions.

JPEC believes that this should be corrected immediately so as not to impose any hardship on the affected customers, rather than waiting until its next general rate case. This is further supported by the pre-filed testimony of Kelly Nuckols, which is attached hereto and incorporated herein as Exhibit “ A”

6. The first of these difficulties has to do with a minimum billing provision which applies to certain Commercial Customers. Under the current tariffs, it is Sheet No. 15, Schedule D – Commercial and Industrial Demand Less than 3,000 kW. A copy of said tariff is attached hereto and incorporated herein by reference as Exhibit “B.” Under the current tariff, Members who are seasonal or experience a temporary shutdown, along with those who are primary metered, are being adversely affected by the Minimum Monthly Demand. The revision to that particular tariff would be modified to reflect a recovery based on the installed equipment, instead of the highest demand established during the preceding 12 month period. A copy of the proposed revised tariff is attached hereto and incorporated herein by reference as Exhibit “C”. A side-by-side comparison of the tariffs is attached hereto and incorporated herein by reference as Exhibit “D”.

7. As part of its revised tariffs, JPEC proposes to change its Outdoor Lighting Tariff. It is currently Sheet No. 11, Schedule OL - Outdoor Lighting. A copy of said tariff is attached hereto and incorporated herein by reference as Exhibit “E”. Under the revised tariff, JPEC will install one (1) pole per service location for outdoor lighting fixtures. Additional poles may be requested and installed by JPEC, but any costs incurred by JPEC in providing the installation shall be paid by the member. JPEC would also then maintain the pole and fixture without cost to the member, unless the member has negligently caused damage to the pole. This change will also change the size of light which will be used in any new or replacement installations as the

size previously used is no longer being manufactured. A copy of the proposed tariff is attached hereto and incorporated herein by reference as Exhibit "F". A side-by-side comparison of the tariffs is attached hereto and incorporated herein by reference as Exhibit "G".

8. Finally, JPEC proposes to change Section 35 of its Rules and Regulations Tariff. A copy of the current section of this Tariff is attached hereto and incorporated herein by reference as Exhibit "H". The proposed revision to this tariff will set the Member's cost for setting a meter pole at \$100.00, as opposed to the actual costs incurred by JPEC. Additionally, it changes the ownership of poles installed pursuant to this tariff so that the poles will be owned by JPEC with a perpetual lease to the Member. This change is intended to allow JPEC to determine when any such meter pole is due for replacement. The perpetual lease fee shall be specified in JPEC's Non-Recurring Charges Tariff and shall be set at \$100.00. A copy of the proposed tariff is attached hereto and incorporated herein by reference as Exhibit "I". A side-by-side comparison of the tariff is attached hereto and incorporated herein by reference as Exhibit "J".

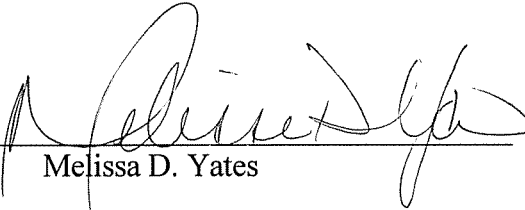

9. As part of its application, JPEC attaches and incorporates herein by reference a copy of its Income Statement as Exhibit "K". Further, JPEC attaches and incorporates by reference a copy of its balance sheet for twelve months ending November 30, 2009, as Exhibit "L".

10. JPEC requested permission to use the abbreviated form of notice as permitted by 807 KAR 5:011 Section 8 (1). The Commission approved said request by an order dated January 22, 2010. A copy of the Affidavit of Publication is attached hereto as Exhibit "M".

Wherefore, JPEC hereby requests that the Public Service Commission of Kentucky approve the requested changes to its operating tariffs.

Dated this the 22nd day of February, 2010.

Respectfully Submitted,

By: 
Melissa D. Yates

ATTORNEYS FOR JACKSON PURCHASE
ENERGY CORPORATION

**COMMONWEALTH OF KENTUCKY
PUBLIC SERVICE COMMISSION**

**APPLICATION OF JACKSON PURCHASE)
ENERGY CORPORATION FOR AN) CASE No. 2009-00451
ADJUSTMENT IN RATES)**

**PREFILED TESTIMONY
OF
G. KELLY NUCKOLS
ON BEHALF OF
JACKSON PURCHASE ENERGY CORPORATION**

Summary of Testimony

Mr. Nuckols testifies to the proposed changes to Schedule D – Commercial and Industrial Demand less than 3,000 kW, Schedule OL – Outdoor Lighting, and Rules and Regulations to correct errors and inequities as filed and approved in Case 2007-00116.

1 Q1. Would you state your name and business address?

2 A1. G. Kelly Nuckols, Post Office Box 4030, Paducah, Kentucky 42002.

3

4 Q2. What is your occupation?

5 A2. President and CEO of Jackson Purchase Energy Corporation (JPEC).

6

7 Q3. How long have you been in your present position?

8 A3. Over 12 years, as I was employed June 2, 1997 as President and CEO.

9

10 Q4. Have you appeared before the Kentucky Public Service Commission and given testimony
11 in electric rate cases?

12 A4. Yes, I have.

13

14 Q5. Have you previously filed testimony in JPEC's rate Case 2007-00116?

15 A5. Yes, see Exhibit H-1.

16

17 Q6. What is the purpose of JPEC's Application to amend tariffs approved in Case 2007-00116?

18 A6. To correct errors and inequities which have become apparent once those documents
19 were submitted and approved.

20

21 Q7. Has JPEC's Board of Directors been involved with the proposed amendments as
22 submitted in the filing?

23 A7. JPEC's Board of Directors has been actively involved with JPEC's management team in
24 the Application for Amendment. JPEC's Board of Directors has engaged in discussions
25 with Members throughout the service area to determine the impacts of the existing tariffs
26 as well as the proposed amendments.

27

1 Q8. Has JPEC proposed a modification in its Schedule D – Commercial and Industrial Demand
2 less than 3,000 kW?

3 A8. JPEC has changed the heading of a section in Schedule D from "Minimum Monthly
4 Demand" to "Monthly Demand Charge".

5

6 Q9. Are there other changes within the Minimum Monthly Demand Section?

7 A9. The section has been modified to reflect the change from "determination of a minimum
8 demand" to "determination of a monthly demand charge".

9

10 Q10. Why were the proposed changes necessary?

11 A10. After the tariffs were approved, JPEC discovered that those Members who have
12 significant variations in their load were experiencing billings under subpart 3 of the
13 Minimum Monthly Demand that were not anticipated. Further, JPEC has determined
14 those variations are not fair, just and reasonable.

15

16 Q11. How does JPEC propose to remedy this inequity?

17 A11. Subpart 3 has been modified to a recovery of fixed costs through the size of transformers
18 installed at the Member's location, as opposed to the fixed cost recovery based on the
19 preceding 12 months of billing history.

20

21 Q12. Has JPEC previously had charges that were based on the installed transformer capacity?

22 A12. Prior to JPEC's rate case in 1997, a minimum billing provision based on the installed
23 transformer capacity was used. That provision was erroneously deleted from the
24 submitted and approved tariffs in Case 1997-00224.

25

26 Q13. Is there a negative impact on JPEC's revenue under the present approved Schedule D?

1 A13. Under the presently approved Schedule D, a large decrease in the Member's demand
2 over a prolonged period of time would result in JPEC not recovering its fixed investment.
3 The Schedule as presently applied would look back at the previous 12 months history.
4 After the 13th month the history would have 0 demand or the greatly reduced amount,
5 resulting in reduced billing.

6

7 Q14. Are there other changes in the Minimum Monthly Demand?

8 A14. Yes, the factor in subpart 4 has been reduced from 60% to 20% to more fairly reflect the
9 actual costs.

10

11 Q15. A new sentence has been included in the Monthly Demand Charge. What is the reason
12 for the new sentence?

13 A15. As originally filed and approved, those Members who are primary metered and were
14 under reduced loading were paying rates that were not fair, just and reasonable. JPEC's
15 investment with a primary metered Member is only in the metering equipment and
16 system reserve capacity. This is significantly reduced from Members who require
17 transformers and other equipment. Therefore, subpart 3 would not be applicable and the
18 factor in subpart 4 should be reduced to reflect the reduced investment.

19

20 Q16. Approximately, how many Members have been impacted negatively by the existing
21 Schedule D tariff?

22 A16. During the last 12 months the maximum number of bills produced with the minimum
23 billing provision has been 142, while the least has been 35. The amounts of these
24 minimum billings range from \$0.38 to \$1,600.56 above actual consumption.

25

26 Q17. Will any Member's bill increase as a result of the proposed changes?

1 A17. Based on analysis and review of last 12 months billings, no Member will receive an
2 increase in their billing as a result of these changes.

3

4 Q18. Will these proposed changes to Schedule D result in a negative impact on the rates of
5 other classes of JPEC Members?

6 A18. The impact on the other classes of JPEC Members should be nearly zero or *de minimus* in
7 total.

8

9 Q19. Do you believe the changes as proposed in Schedule D will result in rates and tariffs that
10 are fair, just and reasonable?

11 A19. Yes, I do.

12

13 Q20. Are there other proposed changes in the submitted documents?

14 A20. Yes, in Schedule OL – Outdoor Lighting, under Conditions of Service, JPEC has eliminated
15 the requirement that the Member pay to JPEC the cost of any pole, other than an existing
16 pole, for an outdoor light.

17

18 Q21. How many outdoor lights can a Member have?

19 A21. The Member can have an unlimited number of outdoor lights; only the first light's pole is
20 included at no cost to the Member. Any additional poles necessary for other lights would
21 be installed at JPEC's cost to the Member.

22

23 Q22. Who is responsible for maintenance of poles installed for outdoor lighting?

24 A22. JPEC will be responsible for all routine maintenance of the outdoor lighting pole.

25

26 Q23. Are there other changes in the Schedule OL?

1 A23. JPEC has added another light to the Rate per Month section; the 150 watt Metal has
2 been added as the 175 watt Metal is no longer manufactured. JPEC used the same
3 method to determine the rate per unit as the other lights listed.

4

5 Q24. How many Members are impacted by the proposed changes in the Schedule OL?

6 A24. For the last 12 months, only two Members have elected to pay for the pole used for
7 outdoor lighting.

8

9 Q25. Will these proposed changes to Schedule OL result in a negative impact on the rates of
10 other classes of JPEC Members?

11 A25. The impact on the other classes of JPEC Members should be nearly zero or *de minimus* in
12 total.

13

14 Q26. Do you believe the changes as proposed in Schedule OL are fair, just and reasonable?

15 A26. Yes, I do.

16

17 Q27. Has JPEC modified its Rules and Regulations in the proposed amendments?

18 A27. Section 35 Distribution Line Extension to Mobile Homes has been modified.

19

20 Q28. Within Section 35, what changes are proposed?

21 A28. The ownership and payment for meter poles has been modified.

22

23 Q29. Why has the ownership of the meter poles been changed?

24 A29. JPEC's management and collective bargaining unit have concerns with the safety of its
25 workmen climbing a meter pole owned and maintained by the Member.

26

27 Q30. What are the safety concerns with the Member owning the meter pole?

1 A30. With JPEC ownership of the meter pole, the pole would be included in JPEC's pole
2 inspection program in an effort to maintain poles that are structurally sound. JPEC
3 workers when required to climb the meter pole for routine maintenance or to disconnect
4 the service, may discover the Member owned meter pole to be unsound structurally.
5 JPEC does not have the means to require the Member to replace the meter pole, without
6 declaring the meter pole to be a hazard to the workers and general public, then
7 disconnecting the Member's service.

8

9 Q31. If a JPEC pole is discovered to be unsound, does JPEC propose to charge the Member for
10 the new pole?

11 A31. As contained in the proposed revision, the Member would pay a one-time fee for the
12 perpetual lease of the meter pole. A pole found to be unsound would be changed out at
13 no cost to the Member. The Member would be responsible to transfer their equipment
14 from the old pole to the new replacement pole.

15

16 Q32. How will the amount of the perpetual lease be determined?

17 A32. As proposed in the revision, the meter pole fee would become an item in JPEC's Non-
18 Recurring Tariff as filed and approved by JPEC's Board of Directors and the Kentucky
19 Public Service Commission.

20

21 Q33. Are there other benefits to the perpetual lease as proposed?

22 A33. Under the existing tariff, the cost from month-to-month varies based on a number of
23 factors as dictated by RUS accounting methodology. With the proposed revision, the cost
24 changes only with modifications to the Non-Recurring tariff and is available for review in
25 advance by JPEC employees and Members.

26

1 Q34. What does JPEC propose the perpetual lease fee to be under the Schedule Non-Recurring
2 Fees?

3 A34. JPEC's board of directors has approved the perpetual lease fee to be included within the
4 Non-Recurring Fees at \$100.00.

5

6 Q35. What is the cost of the meter pole under the present tariff?

7 A35. The average cost of a meter pole for the previous twelve months has been \$191.61.

8

9 Q36. How many meter poles has JPEC installed in the previous twelve months?

10 A36. During the period from July 2008 until August 2009, 59 JPEC Members have paid for
11 meter pole installations.

12

13 Q37. What does JPEC propose for the 59 Members who paid for meter pole installations?

14 A37. JPEC would propose to refund the actual amounts paid by each Member, less the
15 perpetual lease fee; JPEC would then assume ownership of the meter pole.

16

17 Q38. Are there other benefits to JPEC ownership of meter poles?

18 A38. With the two year system inspection requirement, the inspector would not have to
19 determine ownership of pole, as all meter poles would be JPEC's responsibility. In
20 addition, the meter poles installed will meet or exceed the RUS standard for wood poles;
21 a pole purchased by the Member from a third party may or may not meet this standard.

22

23 Q39. Will these proposed changes to Rules and Regulation Section 35 result in a negative
24 impact on the rates of other classes of JPEC Members?

25 A39. The impact on the other classes of JPEC Members should be nearly zero or *de minimus* in
26 total.

27

1 Q40. Do you believe the change as proposed in Section 35 Distribution Line Extensions to
2 Mobile Homes is fair, just and reasonable?

3 A40. Yes, I do.

4

5 Q41. Does this conclude your testimony in the proposed changes?

6 A41. Yes, it does.

7

1 The undersigned has prepared the foregoing direct testimony and swears that it is true and
2 correct to the best of his knowledge and belief.

RATES AND CHARGES
 SCHEDULE D – COMMERCIAL AND INDUSTRIAL DEMAND LESS THAN 3,000 kW

The monthly billing shall be the sum of the Facilities Charge, Demand Charge, Energy Charge, any applicable Adjustment Clause, and applicable taxes.

Determination of Billing Demand

The billing demand shall be the maximum integrated thirty (30) minute demand of the Member at the Member's delivery point as indicated or recorded by a demand meter. Member shall maintain a power factor at the delivery point as nearly practical to unity (100%). Power factor during normal operation may range from unity to ninety percent (90%). If Member's power factor is less than ninety percent (90%) at time of maximum load, JPEC reserves the right to adjust the maximum monthly metered demand for billing purposes in accordance with the following formula:

$$\text{Monthly Billing Demand (kW)} = \frac{\text{Maximum Actual Measured Demand (kW)} \times 90\%}{\text{Power Factor (\%)}}$$

Minimum Monthly Demand

The minimum monthly demand under this schedule shall be determined from the greater of (1), (2), (3) or (4):

1. The maximum demand registered in the current billing period.
2. The maximum power factor adjusted demand registered in the current billing period.
3. Sixty percent (60%) of the highest monthly maximum billing demand in the preceding twelve (12) billing periods.
4. Sixty percent (60%) of the agreement or contract capacity, based on the expected maximum kW demand upon the system.

Terms and Conditions

Service will be furnished under JPEC's Rules and Regulations applicable hereto.

SHEET NO. 10

RATES AND CHARGES
 SCHEDULE 01 - OUTDOOR LIGHTING

Applicability

Applicable to any class Member.

Type of Service

JPEC will install and maintain automatic lighting fixtures and lamps for high pressure sodium (HPS) or metal halide (Metal) lamps controlled by a photo cell. Existing mercury vapor (MV) lamps will be maintained for existing Members as long as ballasts and bulbs are available but will not be offered for new applications. MV lights will be converted to equivalent high pressure sodium or metal halide lights at the current rates if a mercury vapor light is not repairable.

Rate Per Month

Watts	Lamp Type	Standard Fixture Lumens	Monthly kWh	Rate per Unit
175	MV	7,000	70	\$ 7.51
400	MV	20,000	145	11.22
100	HPS	8,000	40	7.51
250	HPS	23,000	95	10.00
250	HPS - Flood	23,000	95	10.56
175	Metal	14,000	72	12.67
400	Metal	34,000	163	17.82
1,000	Metal - Flood	110,000	367	25.04

Terms of Payment

The above terms are net, the gross rates being five percent (5%) higher. In the event the current bill is not paid on or before the date shown on the bill, the gross rates shall apply.

P.S.C. KY NO. 5

SHEET NO. 12

CANCELLING P.S.C. KY NO. 4

SHEET NO. 11

RATES AND CHARGES
 SCHEDULE OL – OUTDOOR LIGHTING

Upon initial request for lighting, Member shall agree to a minimum service period of two (2) years. If Member disconnects the lighting service before the end of the two year period any remaining balance will be billed to the Member. This term shall apply to a new lighting installation or when an on-site trip is required to energize a previously existing light.

Conditions of Service

Service will be furnished under JPEC's Rules and Regulations applicable hereto.

JPEC will furnish and install one complete lighting unit consisting of the light fixture, arm, ballast, photo cell and lamp. Service may be installed on any existing facility owned by JPEC other than a meter pole. In the event that facilities other than the preceding items (i.e., added cost ornamental lighting and/or poles) are required, the member shall pay a non-refundable contribution-in-aid of construction equal to the total additional cost incurred by JPEC for the additional facilities. Such cost shall include all added material, labor and applicable overhead costs. The contribution-in-aid of construction shall be deposited by the Member or Members based on the estimated cost of the additional facilities. When construction is completed, the Member shall be billed for the actual cost of construction, and credit for advance payment shall be given.

Should the Member require that the lighting be placed in a location other than on an existing facility, the Member shall agree to pay the entire cost of any required facility (less light fixture, ballast, photo cell and lamp) over a twenty-four (24) month period. Member shall agree that should they disconnect the light service before the completion of the twenty-four (24) month period they shall be immediately billed any remaining balance unless any succeeding Member shall agree to continue that obligation. It will be incumbent on the existing member to arrange responsibility with the succeeding member.

Illumination shall be furnished from dusk until dawn using JPEC's best efforts. Outages or malfunctions of the light should be reported as promptly as possible by the Member.

Lamp, ballast, standard globe, standard shade and photo cell replacements will be made by JPEC without cost during normal work hours. Any maintenance outside of the lamp, ballast, standard globe, standard shade or photo cell, including replacement of any existing facility used solely to provide light shall be paid for by the

Member. The Member is responsible for painting of any ornamental fixtures or will reimburse JPEC for any painting requested by the Member. JPEC may require pre-payment before painting and/or replacement is performed.

Any damage to the lamps, luminaries and other equipment resulting from actions other than those performed by JPEC personnel may be charged to the Member at cost, on a separate invoice, if not reimbursed to JPEC by a third party.

The above rate is predicated on JPEC furnishing the basic lamp facility including fixture, arm, ballast, photo cell and lamp and the Member providing (or reimbursing JPEC for) any material or pole needed to mount the fixture in a location other than on existing JPEC facilities. JPEC will not mount light fixtures on a meter pole.

RULES AND REGULATIONS

average cost per foot of the total extension, and credit for advance payment shall be given.

- 2. Each Member receiving service under such extension will be reimbursed under the following plan:

Each year for a period of ten (10) years, which for purpose of this rule shall be the refund period, JPEC shall refund to the Member or Members who paid for the excess footage the cost of one thousand (1,000) feet of the extension in place for each additional Member connected during the year whose service line is directly connected to the extension installed and not to extensions or laterals therefrom, but in no case shall the total amount refunded exceed the amount paid JPEC. No refund shall be made after the refund period ends. For additional Members connected to an extension or lateral from the distribution line, JPEC shall refund to any Member who paid for excessive footage the cost of one thousand (1,000) feet of line less the length of the lateral or extension. No refund shall be made to any Member who did not make the advance originally.

- C. An applicant desiring an extension to a proposed real estate subdivision may be required to pay the entire cost of extension. Each year for a period of ten (10) years, JPEC shall refund to applicant who paid for the extension, a sum equivalent to the cost of one thousand (1,000) feet of the extension installed for each additional Member connected during the year, but in no case shall the total amount refunded exceed the amount paid to JPEC. After the end of the refund period, no refund will be required.
- D. The applicant or applicants may elect to clear the right-of-way, to JPEC specifications, inspections and approval, to reduce the cost of the extension.
- E. The applicant or applicants shall grant the necessary easement for JPEC to construct lines off the original line extension to all adjacent property in order to receive a refund on the original deposit.

(35) DISTRIBUTION LINE EXTENSION TO MOBILE HOMES

JPEC will extend service to an individual mobile home under the following terms and conditions.

- A. The Member shall enter into a standard agreement (as determined by Section 3 through 5 below) with JPEC. Members shall agree to abide by the Bylaws as adopted and approved by JPEC's

RULES AND REGULATIONS

Board of Directors and the Rules and Regulations as adopted and approved by JPEC's Board of Directors and the Kentucky Public Service Commission.

- B. A contribution-in-aid of construction will be charged for extending service to an individual mobile home when JPEC provides the service termination pole (meter pole). This fee shall be determined by calculation of the actual materials costs, including any applicable taxes and overhead costs of JPEC in providing the meter pole. This contribution-in-aid of construction is in addition to the advance for construction fees listed below and shall be payable prior to connection of service. The meter pole thus furnished shall become the property of the Member. In the event the Member furnishes a meter pole which meets the specifications of JPEC, the above contribution-in-aid of construction will not be charged. Should it be necessary for JPEC to furnish necessary grounding, guying, etc. on the Member-furnished meter pole, the Member shall pay a fee for actual material costs, including any applicable taxes and overhead costs to JPEC in providing the necessary grounding, guying, etc. JPEC shall not be responsible for any maintenance associated with meter poles or hardware attached to meter poles.
- C. All extensions of up to three hundred (300) feet from the nearest distribution facility shall be made without charge.
- D. For extensions greater than three hundred (300) feet and less than one thousand (1,000) feet from the nearest distribution facility, JPEC may charge an advance equal to the reasonable costs incurred by it for that portion of the service beyond three hundred (300) feet.
 - 1. This advance shall be refunded to the Member over a four (4) year period in equal amounts for each year the service is continued.
 - 2. If the service is discontinued for a period of sixty (60) days, or should the mobile home be removed and another not take its place within sixty (60) days or be replaced by a permanent structure, the remainder of the advance shall be forfeited.
 - 3. No refunds shall be made to any Member who did not make the advance originally.
- E. For extensions beyond one thousand (1,000) feet from the nearest distribution facility, JPEC may charge, in addition to the charges and refunds listed in Item 35, Section D above, an advance equal to the reasonable costs incurred by it for that portion of the service. Beyond one thousand (1,000) feet the extension shall conform to Item (34), Section B, above and shall conform to 807 KAR 5:041 Section 11.
- F. The Member requesting service may clear right-of-way for initial installation, to JPEC specifications, inspections and approval, in order to reduce cost.

No refund shall be made to any Member who did not make the advance originally.

- C. An applicant desiring an extension to a proposed real estate subdivision may be required to pay the entire cost of extension. Each year for a period of ten (10) years, JPEC shall refund to applicant who paid for the extension, a sum equivalent to the cost of one thousand (1,000) feet of the extension installed for each additional Member connected during the year, but in no case shall the total amount refunded exceed the amount paid to JPEC. After the end of the refund period, no refund will be required.
- D. The applicant or applicants may elect to clear the right-of-way, to JPEC specifications, inspections and approval, to reduce the cost of the extension.
- E. The applicant or applicants shall grant the necessary easement for JPEC to construct lines off the original line extension to all adjacent property in order to receive a refund on the original deposit.

(35) DISTRIBUTION LINE EXTENSION TO MOBILE HOMES

JPEC will extend service to an individual mobile home under the following terms and conditions.

- A. The Member shall enter into a standard agreement (as determined by Section 3 through 5 below) with JPEC. Members shall agree to abide by the Bylaws as adopted and approved by JPEC's

RULES AND REGULATIONS

Board of Directors and the Rules and Regulations as adopted and approved by JPEC's Board of Directors and the Kentucky Public Service Commission.

- B. A perpetual lease fee will be charged for extending service to an individual mobile home when JPEC provides and installs the service termination pole (meter pole). This perpetual lease fee shall be as stipulated within JPEC's Non-Recurring Tariff as approved by JPEC's board of directors and the Kentucky Public Service Commission. This perpetual lease fee is in addition to the advance for construction fees listed below and shall be payable prior to connection of service. The meter pole thus furnished shall remain the property of JPEC. JPEC shall provide and install all meter poles. JPEC shall be responsible for all maintenance associated with meter poles or JPEC provided hardware attached to meter poles. JPEC shall not be responsible for any maintenance associated with Member's service equipment attached to JPEC's meter pole. Upon termination of service, lease shall terminate or transfer to new Member. T

- C. All extensions of up to three hundred (300) feet from the nearest distribution facility shall be made without charge.
- D. For extensions greater than three hundred (300) feet and less than one thousand (1,000) feet from the nearest distribution facility, JPEC may charge an advance equal to the reasonable costs incurred by it for that portion of the service beyond three hundred (300) feet.
 - 1. This advance shall be refunded to the Member over a four (4) year period in equal amounts for each year the service is continued.
 - 2. If the service is discontinued for a period of sixty (60) days, or should the mobile home be removed and another not take its place within sixty (60) days or be replaced by a permanent structure, the remainder of the advance shall be forfeited.
 - 3. No refunds shall be made to any Member who did not make the advance originally.
- E. For extensions beyond one thousand (1,000) feet from the nearest distribution facility, JPEC may charge, in addition to the charges and refunds listed in Item 35, Section D above, an advance equal to the reasonable costs incurred by it for that portion of the service. Beyond one thousand (1,000) feet the extension shall conform to Item (34), Section B, above and shall conform to 807 KAR 5:041 Section 11.
- F. The Member requesting service may clear right-of-way for initial installation, to JPEC specifications, inspections and approval, in order to reduce cost.

average cost per foot of the total extension, and credit for advance payment shall be given.

2. Each Member receiving service under such extension will be reimbursed under the following plan:
 Each year for a period of ten (10) years, which for purpose of this rule shall be the refund period, JP&C shall refund to the Member or Members who paid for the excess footage the cost of one thousand (1,000) feet of the extension in place for each additional Member connected during the year whose service line is directly connected to the extension installed and not to extensions or laterals therefrom, but in no case shall the total amount refunded exceed the amount paid JP&C. No refund shall be made after the refund period ends. For additional Members connected to an extension or lateral from the distribution line, JP&C shall refund to any Member who paid for excessive footage the cost of one thousand (1,000) feet of line less the length of the lateral or extension. No refund shall be made to any Member who did not make the advance originally.
- C. An applicant desiring an extension to a proposed real estate subdivision may be required to pay the entire cost of extension. RULES AND REGULATIONS

- Board of Directors and the Rules and Regulations as adopted and approved by JP&C's Board of Directors and the Kentucky Public Service Commission.
- B. A contribution-in-aid of construction will be charged for extending service to an individual mobile home when JP&C provides the service termination pole (meter pole). This fee shall be determined by calculation of the actual materials costs, including any applicable taxes and overhead costs of JP&C in providing the meter pole. This contribution-in-aid of construction is in addition to the advance for construction fees listed below and shall be payable prior to connection of service. The meter pole thus furnished shall become the property of the Member. In the event the Member furnishes a meter pole which meets the specifications of JP&C, the above contribution-in-aid of construction will not be charged. Should it be necessary for JP&C to furnish necessary grounding, guying, etc. on the Member-furnished meter pole, the Member shall pay a fee for actual material costs, including any applicable taxes and overhead costs to JP&C in providing the necessary grounding, guying, etc. JP&C shall not be responsible for any maintenance associated with meter poles or hardware attached to meter poles.
- C. All extensions of up to three hundred (300) feet from the nearest distribution facility shall be made without charge.
- D. For extensions greater than three hundred (300) feet and less than one thousand (1,000) feet from the nearest distribution facility, JP&C may charge an advance equal to the reasonable costs incurred by it for that portion of the service beyond three hundred (300) feet.
- E. This advance shall be refunded to the Member over a four (4) year period in equal amounts for each year the service is continued.
