Kentucky Power is a for profit business... they had some bad weather related expenses.. as a business owner I understand..but electric is a neccessity not a luxury.. they should do what the rest of us do... suck it up. After a period of near devastating collapse in the economy based on corporate greed, I'm indignant to think this rate increase would be approved, putting an extra burden on families who at this point are simply trying to survive, let alone profit from it.

sincerely,
