To Whom it may Concern:

I am an AEP customer & I am very upset over the thought of another increase to my electric bill. I know the cost of living has went up but, I feel Utility Companies are always trying to increase our bills. If AEP would happen to increase the bill, I believe some people will not be able to afford electricity. I also believe this will have a direct affect on our economy. I do not want to pay for the increased costs including tools, safety equipment, materials, supplies, and labor. Our current rates are more than enough to cover their costs. And if our current rates are not enough to pay for the cost, isn't that what banks are for? Thank you & I pray my voice & opinion will be heard!!
