Dear Sirs:

I am writing this letter in response of the proposed Rate hike of the A.E.P. Electric Co. of 35%.

I am aware that everyone is having a tough time keeping their bills paid at this time. and that includes our electric Co. A.E.P.

I have always admired them, & been thankful also that our rates have been very reasonable, in comparison to another electric Co. I used to have. But at a time when a lot of people who are blessed enough to even have a job are not getting the cost of living raises on their pay checks. And everything is going up, gro., gas, & many other things. But I think that ~~go~~ gas & gas are two items that people spend the most of their paychecks on.

So I am asking you please to say no to this rate hike. It's just too much for people to try to

handle at one time. I am aware
that having electric is a wonderful
blessing, but if it's so expensive
that people can't afford to use it,
then many families will suffer.

Thank you,
Evelyn Mayne
