Dear Sir or Madam:

We just received a letter from Kentucky Power stating their intent to raise our electric rates 34.95%. This would be devastating to many of their customers in Eastern Kentucky. My husband was laid off his job at the end of June, and I know that this would be an added hardship for us. Also people trying to live on fixed incomes, who have also seen an increase in Medicare premiums, will suffer. I can't imagine how we can make it with even a small increase because every service is increasing their rates, but such a huge increase is unconscionable!

We are pleading with you to deny this rate increase!

Sincerely yours,

Floyd Gray
