PUBLIC SERVICE  
COMMISSION

I am writing to protest the proposal of the 35% rise in electricity of AEP.

I live on a fixed income and due to my health issues I have to run an oxygen machine 24 hours daily, seven days a week. My house is old and heats with the old wall heaters.

As it is, I only use a small electric heater and stay sick.

Please reconsider any price hike. People are struggling as it is.

Thank You -
