

Case No: 2009-00459

I am writing this letter about my Electric Bill, I am a elderly woman, I can't afford to pay a higher bill my Bill is already over \$300.00 dollars a month. I don't understand why it should raise any. They said the cost of living did not go up, so why should the ~~bill~~ bills. I thought the bills was the cost of living. I have other bills to pay to. Not only this one. A 24.25% is a big raise.

Thank You,
Vicie Panley
