To Whom It May Concern:

I (Joyce A. McKnight) am a poverty level handicapped senior citizen and I'm writing concerning the 34.95 per cent raise the electric company is asking to be added to our electric bill each month.

I'm asking for you to please give exemptions to all senior citizens and if not all seniors then at least the ones who are poverty level.

This increase in our electric bills will only add more hardships on those of us who are already finding it hard to make ends meet.

Please review this situation carefully before increasing bills that most of us will be unable to pay.

Thank you so much for reading and taking my letter into consideration.

Sincerely,  
Joyce A. McKnight
