Case: Ky power Co. raise hike

COMMENTS: We are on a fixed income, Social Security, with no raise in 2010. Everything else has gone up plus my husband and I both have health problems. We take a number of prescription meds. It is sometimes almost impossible to pay for our meds, so other bills get left late or not paid.

There is no way we can pay a 35% raise on our power bill!

Please consider what this raise will do to all those in situations like ours.
