PUBLIC SERVICE  
COMMISSION

Dear Sir,

My wife and I are senior citizens living on a fix income. We have several health problems and the cost of our medicine is high. Now we read that you are planning a rate increase on our Electric bill. We are living in an all electric apartment, and the rent here is very high, and now you are going to raise our electric. We will have to move from here and find something else if you choose not to help us.

Is it possible that you will exempt us from the higher price of electric? We would appreciate this if you find that you will do this for us.

Sincerely,

Samuel & Joan Gross
