Re: Marion County Water District
Case No. 2009-00540
Information Request Time Extension

Dear Mr. Derouen:

I am assisting the Marion County Water District as it pursues the above referenced increase in nonrecurring charges. The PSC issued an information request on April 29, 2010 and required that a response be submitted within 15 days. The information required is quite substantial and will take a rather extensive amount of effort to prepare. The difficulty has been compounded given that the District's service area was hard hit by the recent flooding. Much of the District's resources are focused on correcting the damage and restoring service to its customers. The current situation will most likely result in the District being unable to meet the 15 day response timeline. Being as such, we are requesting a thirty (30) day extension to submit the requested information.

Should you have any questions or need additional information, please advise.

Sincerely,

Lee Mudd, E.I.T.
