Subject: KU rates

My husband and I are a physician and RN in Harrodsburg, KY. We are professionals concerned about the well-being of KY. At a time when inflation is negative and unemployment is greater than 10%, it is an **outrage** that KU is requesting to raise residential rates by almost 14%. The citizens of KY are struggling with unemployment, the housing crisis, the rising cost of food, and our lack of affordable healthcare options. Please do not allow KU to be "the straw that breaks the camel's back" in Kentucky. Please deny their request to raise rates in Kentucky!

Sincerely,
Rebecca Geile
