To whom it may concern,

I am writing to voice my concern and opinion on the suggestive rate increase of KU. What can I say, sometimes I just let it go and hope that other voices do the work. However, it just got under my skin this time for several reasons. KU has the nerve to talk about conservation practices, why, so when users of electricity do so and bills go down they feel they have to recoup some of the lost money. Think about that for a moment, not to mention a lot of people are having trouble paying their bills as it is. Do you hear me, come on do you. KU is one of those bills. Enough said. Kick us while we are down.
