Subject: KU Increase 2009-00548

I don't know if it will do any good or not, but I am against any rate increase for the KU. During the power outage before Christmas, my family was out of electricity for 2 days and we live in town. Everybody around us had electricity but us. If my husband had not went to McDonald's earlier that morning and saw that there were KU people down there for breakfast and asked, we probably would have been without electricity for several more days. You can't get service when you need it and this job took 15 minutes to fix.
