I would like to complain about LG&E's proposed rate increases, listed as **Case Number 2009-00549**. Every time you turn around LG&E is upping its rates. Why doesn't Louisville get some competition to lower the prices of these services? Maybe that should be investigated. And why doesn't LG&E make some sacrifices in its budget? How do they expect people to live? With its constant increase of rates, I think its time LG&E's finance books are looked into.
