I want to protest the impending rate increase by LG&E. This is absolutely absurd! There is absolutely no reason for this increase.

Here is a company that spends millions on TV advertising when they have a monopoly. I have no choice from where I can my gas & electric, yet they have money to burn advertising in prime time offering energy tips that they send out in the mail with the monthly bills.

If you guys approve this increase, it will only be because you have your hands in the back pockets of LG&E. Stand up for what is right. Stand up for the people of Kentucky and don't allow this increase!
