Subject: your comments in case 2009-00549 - Louisville Gas & Electric Co. rates

Dear Ms. Koehler:

Thank you for your comments regarding the rate increase proposed by Louisville Gas & Electric Co. Your comments will be placed into the case file for the Commission's review as it considers this matter. As you noted, the case number in this matter is 2009-00549. Please cite it in any future correspondence regarding this case so that your comments may be readily directed to the case file.

Thank you again for your interest.

Please do not ok the increases for L G & E. We already pay a flat fee for gas coming to our homes. They want to increase it up to \$25+. This is be more than some people would pay for their entire bill in the spring, summer and early fall. Why should we have to pay such a price? There are many people who cannot keep up with their bills now because of the economy and unemployment. If they can't pay their utilities will be cut off. Most people did not get raises this year, so why should they.

Didn't L G & E have insurance to cover all or part of their expenses during the ice and wind damage I think they are trying to take an advantage of bad situations. It seems to me it hasn't been that long since they got a raise. I hope you give the decision you must make a lot of thought.
