Subject: LG&E PROPOSED RATE HIKE
Auto forwarded by a Rule

I wish to express my feelings concerning the LG&E proposed rate hike where the fee to bring services would be raised for all customers. This would hit seniors ,who are on fixed incomes and already struggling ,especially hard. I oppose the change. I believe it should stay as it is now, based on usage. Also as to recouping costs, those of us who lost freezers full of food, busted water pipes etc. just had to deal with it. LG&E didn't reimburse its customers so why should we have to pay for a natural disaster so LG&E can continue to prosper ?
