I am protesting the rate increase from LG&E. I have never done this before but this makes me mad for them to do this. They need to dip in their own pockets like we had to because of the storms. Their pockets are deeper than ours. They can cut back on expenses like we have had to also. They have ask for too many rate increases in a short period of time and they need to be held accountable. How much do their top management people make? This is not right!!!
