I'm retired and on a fixed income. The Federal Government has said there was no cost of living increase, so our monthly checks would not increase. My health-care coverage cost, my gasoline cost, my water/sewer cost have all gone up. I had my own business for a lot of years and had to run more efficiently when there was a downturn or rough spot. If they have the ability to just increase their rates when they experience a problem, there is no reason for them to become more efficient and cost conscious. Please do not let them go through with their requested increase.

Thank You
 Dale Winters
