

Dear Mr. Stanley:

Thank you for your comments regarding the rate increase proposed by Louisville Gas & Electric Co. Your comments will be placed into the case file for the Commission's review as it considers this matter. As you noted, the case number in this matter is 2009-00549. Please cite it in any future correspondence regarding this case so that your comments may be readily directed to the case file.

Thank you again for your interest.

PUBLIC SERVICE  
COMMISSION

my name is robert stanley and i want to address the rate increase.# 2009-00549  
they say it is because of the previous storms and repairs for gas lines....well don't they have insurance to cover the storm damages...and if i remember right the mayor came on tv and said most of the damage was covered by the federal govt.what do they do with profits...as a home owner i put back money just incase i have a mishap,( hot water heater,furnace, dryer ) same with my vehicles. money is put back for repairs...so why can't they do the same...they want to raise the fees up to 25 and 15 dollars,well as a home owner and i think 90% of the home owners would gladly pay that 40 dollars hell i would throw up 4000....to buy them out and have a piece of stock in the company....JUST A THOUGHT YOU MIGH WANT TO LOOK INTO.how much money do the ceo's and higer ups need to make....  
stop this increase.....

Robert Stanley
