The rate increase that LG&E has requested is out of line and due to mismanagement. Relative to the expenses of the storms, if they would manage keeping trees trimmed near lines the losses would be much smaller. Also how can they expect consumer to pay higher rates when they give megabucks to Thunder Over Louisville, \$100,000 to project warm and \$100,000 to the Louisville Urban League. They are a utility and not a charitable business.
