The up and coming 19% price increase is unbelievable, every time that we turn around LG&E are increasing their rates which makes it very hard to people to afford. I do happen to believe in Global Warming and if in fact it is true, then the temperature is obviously going to increase. If there is anything else that can be done other than the 19% increase, that would be great, And who and why came to the conclusion of 19%?

Thank you for your time,
Michelle P. Feger
